Course cards are available on the **My Home** page, where teachers can access the **Enroll Student** panel, the **Class Register** and a direct link to each course. The course cards are now colour-coded, depending on the user's role in the course. (See above screenshot.)

Teachers can access the Binder from the teacher's **My Home** page. Note the toolbar and the artifacts on the **My Portfolio** page has been updated slightly. It now includes a refresh artifact display button.

Feel free to explore the new site.
